Insurance.

Phœnix Fire Assurance COMPANY.
LOMBARD STREET AND CHARING CROSS,
LONDON.
Established, 1782.

For Insuring every kind of Property in all Parts of the World from Loss or Damage by Fire.

THE PROMPTITUDE AND LIBERALITY with which its engagements are always met by this Company are well known, and the importance of its relations with the Public may be estimated from the fact that since its establishment it has paid more than Nine Millions Sterling in discharge of claims for Losses by Fire.

The security offered to the Public by the Phœnix Office is unlimited, comprising in addition to the large invested capital of the Company the whole fortunes of numerous proprietors composed of some of the most opulent merchants and others in the United Kingdom. Annual and short time Insurances are effected upon all kinds of property in Vancouver Island and British Columbia on the most favorable terms.

Prompt cash payment and full power to settle all losses and claims without referring to the Head Office in London.

Rates and Particulars of Insurance may be had on application to THOS. C. NUTTALL, Agent, au1 Government street opp. Masonic Hall

Notice of Removal.

CONFEDERATION
LIFE ASSOCIATION!
OF CANADA.
Head Office, Masonic Hall, Toronto.
CAPITAL.....$500,000.
Stock and Mutual Plans Combined.

Deposited with Dominion Government for Security of Policyholders, $50,000.

PRESIDENT—Sir Francis Hincks, K. C. M. G. Finance Minister of Canada.
VICE PRESIDENTS—Hon. Wm P. Howland, C. B., Lieutenant-Governor of Ontario; Hon. Wm. McMaster, President Canadian Bank of Commerce;
Issued—Over 500 Policies first half-year.

This Association issues all the most approved forms of Policies—all non-forfeiting by charter. Its principle of non-forfeiture more favorable to assured than that of any other company.

A strong company which combines strength of capital, character and local influence and provides life insurance at the lowest safe rates without delusive promises of dividends, making a good dividend CERTAIN by decreasing the premium.

By its organization it enables each policyholder to deal with his own neighbors, stockholders in the company—men whom he knows will do justice to his family after he is dead, and also provides that its funds will be invested to develop the resources of his own country and locality.

A company with capital and breadth enough to be safe beyond question, with national extent and prestige, and yet a HOME company throughout the Dominion.

WILLIAM McCABE,
General Manager, Toronto.

Canadian Retrogression and Decay.

An illsustained attempt is made by one of her own people to demonstrate that the progress of the Dominion has been one to retrogression, leading to inevitable decay. At such a time it is especially interesting to see what disinterested opinion is on the subject. We have recently seen by the "Times" that Confederation has proved successful beyond the anticipations of its most ardent advocates, and the growth has not been less marked in a loyal national feeling than in commercial, maritime and industrial interests; and it will be admitted that the 'Times' is not likely to be a partial judge as in favor of Canada. Turning to that stand-old Conservative publication, "The Saturday Review," we find a most carefully written leading article on the projected Reciprocity Treaty, in which, after an elaborate view of the whole subject, it arrives at the following conclusion: "The proposed Treaty would evidently be advantageous both to the Dominion and to the United States; and it is not desirable that the Imperial Government should interpose selfish objections." But, what is more to the present purpose, it says:—

"On the abolition of the Reciprocity Treaty, Canadian industry was stimulated to seek new outlets. The federation of the Provinces was accomplished in fifteen months; the inland water communication was greatly improved; and the great ship-building and fishery interests received a new and vigorous impetus. The total imports and exports of the Dominion and Newfoundland amount to £48,000,000l a year; and it may be doubted whether any other country with a population of only 4,000,000 enjoys equal commercial prosperity. The commerce with the United States formed in the last year of the Reciprocity Treaty 52½ per cent. of the whole. It now amounts to 35 per cent."

These facts constitute a tolerably good answer to the wild assertion that under Confederation Canada has not prospered. It is seen that, with all the disadvantage of having the Reciprocity Treaty abrogated and the markets of her principal customers closed, or partly closed, against her, Canada has attained a degree of prosperity under Confederation for which perhaps no country affords a parallel. Until very recently our local contemporary vied with other Canadian journals in demonstrating the healthy and rapid progress of the Dominion under Confederation. Within the past fortnight it has devoted itself to the patriotic task of proving the reverse! An intelligent public will experience little difficulty in supplying the explanation.

Artesian Irirgation.

For years past the subject of irrigating the magnificent country drained by the Lower Thompson by means of artesian wells has had more or less thought bestowed on it. We are glad to learn that the theory is about to be put to a practical test. Artesian boring will be commenced very shortly, the use of the boring plant bequeathed to British Columbia by Gen. Moody, of the Royal Engineers, having been secured for the purpose. Most of our readers will be aware that this mode of irrigation prevails extensively in California, and that it is found to answer admirably. There appears to be no reason in the world why it should not prove equally successful in the great plains and benches of the interior of British Columbia. Should the experiment now about to be tried succeed, we can hardly trust ourselves to dwell upon the results, not only as regards agricultural and horticultural productions, but also the great pastoral interests so important in that part of the country. The result of this spirited venture will be waited for with no little interest and anxiety, and we earnestly hope soon to chronicle its complete success.

WORTHY OF ATTENTION—A series of popular monthly publications issued from the well-known house of Cassell, Petter & Galpin, London. They are profusely illustrated from designs by Dore and other celebrated Artists, and are replete with information useful, instructive and entertaining, and when once introduced they will become a welcome visitor to ever family. They can be bound here neatly and inexpensively in volumes when completed as may be preferred. Mr. S. W. James, who has undertaken to canvass for subscribers, will give all the necessary information relative to prices, etc., and will also have with him specimen copies, which will recommend themselves.—T. N. HIBBEN & Co. ***

REMOVAL.—*H. SHORT, Gunmaker, has removed to Occidental Building, Fort Street, opposite Scotch House.* ***

Dominion Mail Summary.

OTTAWA, Sept. 21.—The Dominion rifle matches closed on Saturday evening. Lord Dufferin distributed the prizes on the ground to the successful competitors.

It is rumored that pending the probable retirement from public life of Sir John Macdonald, which he says will follow should he be unseated for Kingston, Mr. Patteson, of the Toronto "Mail" will contest with White, of the Mnotreal 'Gazette,' for the leadership of the Conseavative party. This is regarded as the best joke of of the season.

A pnblic meeting was held at the City Hall to-day in favour of the Huron and Quebec Railway. Resolutions in support of the scheme were adopted.

Speaker Anglin will arrive here next Friday

Sir John Macdonald has returned home, after a sojourn of several weeks at Cacouna.

Mr. Mackenzie, D. A. Macdonald and Mr. Geoffrion left town this morning for the west, intending to be present at the Provincial Fair in Toronto.

His Excellency and Lady Dufferin entertained Admiral and Lady Wellesley at dinner on Saturday evening las. Several Cabinet Ministers were present.

The Hon. M. Fournier leaves this evening for St. Gervais, County Bellechasse, to be present at the christening of a new church. His Grace the Archbishop of Quebec will perform the ceremony. M. Fournier, while at St. Gervais, will address a meeting of his constituents on the political questions of the day.

Lieut. Reit arrived at Ottawa to-day from Fort Garry. He came down with an escort who were bringing a deserter from the 60th to the Central Prison.

QUEBEC, Sept. 21.—The new Provincial Cabinet will, it is understood, be worn in to-morrow, and be composed as follows; Hon. C. B. DeBoucherville, Premier and Provincial Secretary; Hon. H. G. Malhiot, M.P.P. for Three Rivers, Attorney-General; Hon. J. L. Robertson, Treasurer; Hon. P. Garneau, M. P. P. for Quebec, Commissioner of Public Works; Hon. Felix Lemaire, M.L.C. for Mille Isle, Speaker for the Legislative Couucil; Hon. A. R. Angers, M.P.P. for Montmorency, Solicitor-General; Hon. Mr. Church, Commissioner of Crown Lands.

The Right Hon. W. E. Forster, M. P. Minister of Education in Mr. Gladstone's Cabinet, arrived in town by the Circassian to-day. The Right Hon. Lord Claud Hamilton, M. P., Lieut.-Col. Dowling, of the British Army, Dr. Tasse, and the Rev. Dr. O'Connor, Roman Catholic Curate of Ottawa, are among the late distinguished arrivals in town.

OTTAWA, Sept. 18.—The Free Press says the whole of the Canadian Pacific Telegraph line is required to be completed in the year 1876.

Notice has been given in the Quebec Official Gazette that application will be made to the Legislature of that Province at its next session, for an Act to enable the Presbyterian Church of Canada in connection with the Church of Scotland, the Canada Presbyterian Church, the Presbyterian Church of the Maritime Provinces in connection with the Church of Scotland, and the Presbyterian Church of the Lower Provinces, which propose to unite in one Church under the designation of "The Presbyterian Church in Canada," to hold, after the union, the property of the various congregations, collegiate institutions, and the trusts connected with the said churches, in the same manner as now held by the respective churcher, nnd in so far as it lies within the Province of Quebec.

Saturday's "Official Gazette" contains the following appointments:

The Hon. Edmund Burke Wood, Chief Justice of the Court of Queen's Bench for the Province of Manitoba, to be Administrator of the Government of said Province, during the absence, in his capacity of a Commissioner to negotiates Treaties with the Indians of the plains, of the Hon. Alexander Morris, the Lieutenant Governor of the said Province.

Parliament has again been summoned to meet on Friday, the 13th of October, next, but not then to meet for the despatch of business.

ROYAL INSURANCE COMPANY, LIVERPOOL & LONDON

Sproat & Co.

AGENTS FOR

BRITISH COLUMBIA.

The annual meeting of the proprietors of this company was held on Friday last, at the head offices, Royal Insurance Buildings, North John-street, Liverpool. Charles Turner, Esq., chairman of the board of directors, presided.

The notice convening the meeting having been read, the report, as follows, was taken as read:—

FIRE DEPARTMENT.

The directors have the pleasure of reporting that in this branch of the business the results of the year 1873 have been the most satisfactory, as respects the aggregate amount of profit realised, which the company has ever experienced.

The fire premiums for the period amount to £807,405 19s. 6d., and the losses to £436,190 10s. After the deduction of agents' commission and management expenses, the profit on the transactions of the twelve months, including interest, amounts to £216,-227 16s. 5d. During the year the business in America has been reduced and it will accordingly be observed that there is a slight diminution of income, when compared with 1872. The account for "unearned premium for increased revenue" is therefore closed for the present, and the surplus carried to fire fund, which is thereby increased to £354,637 10s.

LIFE DEPARTMENT.

During the past year, 1406 new proposals were made to the company. Of these 1,099 were accepted and completed for £514,638, the new premiums thereon being £17,271 2s. 9d. The proposals declined during the period amounted to £121,744. The total income from premiums, after deducting re-assurances, amounted to £237,415 10s. 8d., and the interest received from investments (exclusive of that on the annuity funds) was £64,-990 9s. 10d. The claims during the year were:—By death—original sums assured, £117,228 17s. 6d.; bonus additions thereon, £7,423 11s. 2d. By matured policies (including children's endowments)—original sums assured, £1,750; bonus additions thereon £134 15s.; total, £126,537 3s. 8d.

In the annuity branch the purchase money received for new annuities, together with the premiums on contingent annuities, amounted to £12,451 6s. 2d., and the interest to £7,544 9s. Thirty annuitants have died during the year, the annual payments to whom amounted to £1,473 2s.

The result of the operations for the year is that, after payment of all claims, annuities, and expenses of every description, £158,547 0s. 4d. has been added to the life funds, making the total accumulations of the life branch of the company £1,761,523 11s. 11d.

The quinquennial investigation of the life business will be made at the close of the present year, preparatory to the declaration of a bonus to the assured at the annual meeting in 1875. The method adopted at the investigation of 1870 for securing perfect accuracy in the calculations will again be followed, and a separate valuation of the liabilities will accordingly be obtained from an independent actuary, in addition to the valuation by the officers of the company.

During the four years now expired the mortality has continued to be below the expectation, nnd the life fund has been increased by a larger amount than in any similar period since the establishment of the company. From a review of the business at the end of the first half of the present year, it may be fairly anticipated that, after making ample provision to meet a somewhat higher rate of mortality, which the recent researches of the Institute of Actuaries shew may be anticipated, the balance of profit will be satisfactory alike to the shareholders and the assured. oc3

au30dw LANGLEY, B. C.

Daily British Colonist.

WEDNESDAY MORNING, OCT. 7TH, 1874.

THE BRITISH COLONIST
Is the only Paper Published at Victoria that receives Regular Telegraphic Dispatches.

MARRIED.

At the Manse, Douglas street, on the 3d inst., by the Rev. S. McGregor, M. A., Ephrain Langell to Rosa Houb.

At the same place, by the same, on the 6th inst., Marian J. Meeker to Mary L. Weller, both of Washington Territory.

The Saanich Show.

Yesterday will long be looked back to by the people of North and South Saanich Districts and their friends as the occasion of one of the most pleasant events that ever transpired on this "tight little isle" of ours. Long before the hour fixed for opening the Show at the old Schoolhouse farm wagons bearing farmers and their wives, troops of children and mammoth specimens of farm-produce, and several buggies and hacks from Victoria, filled with happy-looking men and women bent on a holiday, were to be seen rolling along towards the fair ground. The roads were in good order. Just enough rain had fallen to lay the dust, and the grounds were in excellent condition to receive the throng. At noon there was a large assemblage of both sexes, and the display of live stock, vegetables, dairy produce and cereals was the largest and best Saanich has yet shown. The cereals—particularly wheat—was the best we have seen; and the fresh butter would have made a Devonshire gudewife turn pale with envy. The competition in this respect was so keen that the judges had great difficulty in deciding which was the best, but finally concluded that Mrs. J. D. Bryant was entitled to the first and Mrs. T. Mitchell to the second prize. The grapes, melons, tomatoes, etc., exhibited by A. C. Anderson, Esq., were beyond all praise. Mr. Anderson took the first prize for the best collection—comprising 22 varieties—of apples. Mr. D. B. Reid was awarded the first prizes for the best made farm boots and shoes. The needle and fancywork formed a handsome feature in the exhibition; and a *fac simile* of Edinburgh Castle, by Mr. C. R. Smallbone, with the guard in position to receive Sir James Douglas, was greatly admired. A squash, grown by W. Wales, weighed 60 lbs and, of course, was awarded the first prize. A beautiful stallion, owned by W. Turgoose, took the first prize. There were some very fine draught horses, and the fowls were clean, handsome and fat.

Amongst the visitors from Victoria were Hon. A. Bunster, Dr. Tolmie, M.P.P, Mr. Robertson, M.P.P, Mr. Robson, M.P.P, Mr. R. Smith, M.P.P, Miss Bunster, Mr. Jas. Fell, Mrs. Denny, Mr. and Mrs. Tierney, Mrs. Lenahan, Miss Macauley, Mr. and Mrs. Howard, Mr. and Mrs. Barnes and many others.

The excellent Committee—Messrs. L. Eckstien, A. Anderson, J. T. McIlmoyl, W. Thompson, and M. Reid, were omnipresent and indefatigable. To them and to Mr. Brown, President; Mr. Bryant, Vice President; Mr. S. Deans, Treasurer; and Mr. Robert John, Secretary; is due the meed of praise for the success of the exhibition. The worthy Secretary was especially noted for his zeal and industry from first to last.

It was noticed that not a single member of the Local Government felt sufficient interest to visit the fair—not even the Minister of Agriculture!

Following is the

PRIZE LIST:

CLASS A. CATTLE.

Best bull of any age, X. Marcot; second best, W. Thompson.
Best 3 to 5 year old steer, F. Spotts.

Passengers per Steamship Los Angeles.

A. Dunsmuir, Mr. Mandeville and wife, F. Garesche, Mr. Mowrey, Mr. Fenton, A. Pope and wife, B. R. Pennell, W. Lyons, Mrs. Spinner, R. J. Hogan, C. G. Gilbert, B. W. Heathorn, P. Linchey, Mrs. Mary Howard, Mrs. D. W. Higgins and four children, Mme. Duret, Miss St. John, R. Hett, Mr. Archer, Mr. Black, A. Pope, jr., and wife, Mrs. Mary Rodgers, Mrs. Sweeney and two children, R. T. Wood and wife, Mrs. Mary Johnson and son, A. J. Bartlett, J. Williamson, J. Bell, Miss L. Howard, and a large number in the steerage.

MELBOURNE AND SAN FRANCISCO.—Melborne, the metropolis of Australia, is perhaps not as well known as the chief city of the fifth continent should be, but the California *Alta* draws an interesting parallel between that city and San Francisco. There is only a single mile's difference in the distance of the two cities from the equator, though one is south and the other north. Both had their begining as towns in 1835, and both remained insignificant until the discovery of gold in their respective countries, and a kind of remarkable balance of circumstances has seemed to keep them side by side. In regard to its public works, however, the Southern metropolis is far ahead. Among these in the Botanical Garden, which has 22 miles of walks and 350,000 shrubs and trees, the most luxuriant that will thrive in a sub-tropical climate. The water-works, constructed at a cost of $5,000,000, bring 10,000,000 gallons into the city daily by a pipe twenty miles long, and have an income of $350,000 a year. There is a public hospital that has nineteen attendant physicians, and treats 20,000 patients annually; a public library with 60,000 volumes and a main room 240 feet long by 50 wide; a court house with a public hall that will accommodate 4,000 persons; and a University that cost $500,000 and has an income of $45,000 to pay the current expenses.

A LUCKY PUGET SOUNDER.—By the last steamer down from Wrangel came quite a number of Cassiar miners, who went thither from the Sound, some of whom did well, and others poorly. Among the fortunates one was Harry Griffin, who brought down with him greater strength and better health than he took, and a pocketful of rocks to sustain himself and family with during the winter, and enable him to start in business with next spring. In company with two or three others, he bought a new claim, the owners of which had become early discouraged, and made good wages out of it from the beginning, selling it out at the close at a very handsome advance on the original cost. He reports leaving Mr. John Dooley on Dease Creek, and that he was another of the lucky ones, all that he touched turning into gold. Capt. Jackson, who came down about a month ago, was another of this class, and is fixed to go through the winter in comfort and luxury. We are glad to have this much, at least, to say for the summer's mining at Cassiar.—*Tacoma Tribune.*

ACCIDENT. — Five children of Harry Simpson of South Saanich were thrown from a bridge on the East road, on Saturday last, by the shying of a horse. One of the children was driving and one of them seriously injured. The horse shied at a hole in the bridge.

THE holder of ticket No. 177 in the Wilson lottery was Mr. S. Pitts. He sold it for $100 to W. McDowell, who now owns the horse, dray, etc.

The Railway Terms.

Before leaving Ottawa for this Province Mr. Nathan had repeated interviews with Mr. Mackenzie touching British Columbia Railway interests, and Mr. Nathan fully confirms what has been asserted in these columns from the very first, viz: that Mr. Mackenzie is ready and willing, has been ready and willing all along, to arrange New Terms with this Province which could not fail to be both acceptable and highly beneficial to it. If the People of British Columbia will but show a disposition to treat with the Dominion Government, Mr. Nathan is sure that Terms advantageous to both sections of the Province can be arranged within the next fortnight.

SOUND BY TELEGRAPH.—A most important discovery in telegraphy is reported to have been made by Mr. Elisha Gray, of Chicago, who has succeeded, says the *Echo*, in perfecting an instrument which will convey sound by electricity over an unbroken circuit of extraordinary length, without the aid of automatic repeaters, which in the ordinary transmission of messages occur about every 500 miles, to renew the current of electricity. Mr. Gray is reported to have not merely effected an improvement of mechanism, but, as we understand it, he has made a discovery which may lead to important results. He has transmitted sounds distinctly audible at the receiving point over an unbroken circuit of 2,400 miles, reproducing on a violin attached to the receiving wire several tunes played on a small melodion or piano key-board at that distance of space. Some noted electricians are said to predict from the success which has attended Mr. Gray's experiments, that the time will come when manipulating instruments will be done away with altogether, and when the telegraphic operators at each end of the wire will transmit the sound of their voices along the wire, and talk together, instead of telegraphing.

EBONY FROM SEAWEED.—An American periodical says:—It may interest some of our readers who reside near the sea coast to learn that there is considerable commercial value in the common seaweed which is thrown up so abundantly on the shore. In addition to their uses as a manure and for packing, quantities are now converted into artificial ebony. The process consists in first treating the plants for two hours with dilute sulphuric acid, and then drying and grinding them up. To sixty parts of this product, five parts of liquid glue, five parts of guttapercha, and two and a half parts of india-rubber are to be added, the latter two being first dissolved in naptha. Afterwards, ten parts of coal tar, five parts of pulverized sulphur, and five parts of pulverized resen, are added, and the whole heated to about 300 deg. Fahr. When cooled, a mass is obtained which in colour, hardness, and capacity for receiving a polish, resembles ebony, and is much cheaper. This material is now actually made on a large scale and used for nearly all the purposes to which ebony can be applied.

PERSONAL.—Mr. F. J. Barnard will return by the mail steamer leaving San Francisco on the 20th inst. An Ottawa dispatch of the 19th ult. says: Mr. Barnard, who yesterday completed the terms of the contract for the construction of the British Columbia section of the Canadian Pacific Telegraph Line, leaves this evening for Montreal. He has already telegraphed to his agents in that Province to commence operations at once by getting out poles. He expects to be able to get up sufficient material to complete 50 miles of line this fall, and thus open up telegraphic communication with Kamloops."

THE building in Washington for the British Embrssy, said to be the handsomest and costliest residence in the city, has been finished, and will be ready for the occupance of Sir Edward Thornton on the 1st of October. Its cost has been about one hundred and fifty thousand dollars, and the furnishing will cost half that sum. It has seventy rooms and covers about ten thousand square feet of ground. It is of pressed brick, laid in black mortar, and is trimmed with light gray sandstone.

THE Canadian *Government Gazette* of Sept. 12th contains the proclamation (before published by us) relating to the sale of liquor to Indians in British Columbia. This proclamation renders it impossible for Indian whisky sellers to escape punishment on the plea that the Dominion Liquor Act does not comprehend Indians of British Columbia.

A MEMBER WORTH HAVING— It is in contemplation by the Saanich Agricultural Society to erect buildings in which to hold future exhibitions. With a view to promoting that laudable object Mr. W. A. Robertson, junior member for the District, has donated five thousand feet of lumber.

THE SPEAKER has ordered a writ to issue for a new election at Lillooet. Not the slightest doubt is entertained of the defeat of Mr. Saul and the re-election of Mr. Humphreys and a trusty colleague.

THE Tacoma *Tribune* says that F. Hard, the U. S. Postal Agent, is to blame for the irregularities in the Puget Sound Mail Service.

RAYMOND SEWING MACHINES.—These favorite machines are easy to learn, durable and light running—and have all the newest fittings. They make a beautiful stitch and sew light and heaviest work All who have purchased these machine testify to their excellence. "The Raymond Lockstitch Machines" are made in three sizes. To further recommend these machines a limited number will be let out on hire. A supply lately received by A. B. Gray, sole Agent in B. C.—Albion House, 31st July. 1874. **

A. GILMORE has just received a large assortment of Canadian and English Custom-made Clothing, which he will sell at Reduced Prices; therefore the public are invited to call and select for themselves and make their purchases before going elsewhere. **

FELL'S COFFEE, superior to any other manufactured on the Coast, may be obtained of all respectable dealers through out the Province. **

By Electric Telegraph.

EXCLUSIVE TO THE COLONIST.

LAST NIGHT'S DISPATCHES.

California.

SAN FRANCISCO, Oct. 5th — Flour, extra, $4 87½@5 12½.
Wheat, coast, $1 37½; shipping, $1 45; good milling, $1 47½.
Barley—$1 05@1 20.
Oats—$1 40@1 65.
Hay—$9@14.
Potatoes—Half Moon Bay, $1 7½@$1 10.
Dairy Products—Oregon eggs, by the steamer to-day, sell at 32½ cts. per dozen.

SAN FRANCISCO, Oct. 3—The steam tug Rescue went ashore this afternoon in the North Roads and is a total wreck. It is not yet known whether any lives were lost; but it is thought the crew escaped. The steamship Colorado, from China and Japan, reported lost, is coming up the harbor.
Arrived, Oakland, Port Madison.

Canada.

QUEBEC, Oct. 2—The public departments and many business places were closed yesterday in honor of the observance of the hundredth anniversary of the foundation of the Roman Catholic Bishopric in Quebec.

Europe.

LONDON, Oct. 2—The *Times* contradicts the statement recently current that the Queen paid the debts of the Prince of Wales. At the present time the debts of the Prince amount to a little more than a third of his annual income and include bills due scarcely longer than a year. The Prince's balance at his bankers to-day will more than suffice to pay the claims.

PARIS, Oct. 5.—Returns from the elections for Council-General are slightly in favor of the Conservatives. Prince Napoleon was defeated at Ajaccio.

Eastern States.

WASHINGTON Oct. 5—At the instance of Senator Mitchell, the Postmaster General has increased the mail service on Columbia River from Kalama to Astoria, from a tri-weekly to six times a week, giving the C. S. N. Co. a contract pro rata and increased pay.

Senator Mitchell left Washington today to deliver an address at his former home in Pennsylvania, by invitation of the President and Trustees of the Weather Report Institute.

NEW YORK, Oct. 5—The *Times* published the following, dated New Orleans last night: Gov. Kellogg received information that this evening, upon the arrival of the U. S. Troops at Conshatta, some 15 of the white leaguers, who were engaged in recent murder of Republican office-holders, left the town and went to Arkansas or Texas.

NEW YORK, Oct. 2.—Plymouth Church was packed with people this evening to hear Mr. Beecher on his return from his summer vacation. At 7 o'clock there was no standing room in the Church and ladies were frequently borne out in a fainting condition. Amongst those present were Mrs. Beecher, Chas. Beecher, Dr. Edward Beecher, Col. Beecher, Mrs. Harriet Beecher Stowe, assistant pastor Halliday, all the members of the late investigating Committee, Profs. Rossiter, and Raymond, and the trustees of the Church. Promptly at 7:30 p. m. Beecher came on the platform and was received with a storm of applause.

NEW YORK, Oct. 3.—A Madrid letter to the *Herald* says: It is well known in official circles in Madrid that the German Government has within a few days sent a note to the French Government that the German Government having made official investigations along the French frontier, as to the aid France is giving the Carlists, requests France to send 25,000 troops to the frontier to stop such aid. Otherwise Germany will be compelled to do so.

There was great excitement when it became known that Beecher had appeared before the Grand Jury against Tilton and Moulton, and indictments were found against them for malicious slander and libel. It is understood that when Beecher gave his testimony he was in the highest degree emphatic and declared that the allegations of Tilton and Moulton with reference to himself, Mrs. Tilton and another lady were atrocious falsehoods.

The shooting in the Bennett long range champion rifle match was continued this morning at Creedmor. Shooting was taken up at 1000 yards, the range where it was interrupted by darkness last evening. Before shooting Colonel Gildersleive announced the decision of the Executive Committee to allow each competitor to shoot his last five shots again this morning, the shooting to be optional with them. To this John Rigby of the Irish Team protested. The protest will be referred to the Executive Committee at its meeting this evening. The shooting of the five shots in the Bennett long range match will therefore be subject to their decision. The match resulted as follows: First prize to John Rigby of the Irish Team; second, Fulton of the American Team; third, Capt. Mason of Canada; 4th, Miller, and 5th Hamilton, both of the Irish Team. The contest between the Rigby, muzzle-loading, and the Sharp breech-loading rifles, then took place, and each was allowed 25 shots at the 1000 yards target. The Rigby rifle won by 173 points.

NEW YORK, Oct. 5.—Theodore Tilton and F. S. Moulton have been notified of the indictments found against them for the alleged libel and slander of Beecher. The bail for each has been fixed at $3,000.

PHILADELPHIA, Oct. 2.—Wool quiet but firm; stock scarce; Colarado, washed, 25@30 cts.; unwashed, 25@26 cts.; extra, and merino pulled, 30@31 cts.

Nevada.

NEVADA, Oct. 3.—An affray took place this evening a little after 7 o'clock at the Justice Hoisting Works, at Lower Gold Hill, in which two men were instantly killed, two have died since, and a fifth cannot survive the night. There has been trouble among the trustees of the Justice Mining Co. Two parties, one side as represented by Mr. Munor, president of the company, who appointed Wm. Kellogg superintendent, day before yesterday, in place of Fred Smith, present superintendent. Trouble has been anticipated for the last four days, and this evening at 7 o'clock, a party of men headed by Mr. Kellogg, the newly appointed superintendent, went towards the Muller Defeat Works; they were warned off, but instead of desisting, they made a rush for the entrance and shooting commenced on both sides. The following are the names of the killed: W. Kellogg, M. Dane, Reily and J. Brown. J. Shipley was mortally wounded. Drs. Seabriskie, Kirby and Coroner Harris were called for, but could render but little assistance, the men being beyond the hope of recovery. The occurrence has created a deal of excitement in Gold Hill and Silver City.

Lord Dufferin on Immigration.

In an admirable speech recently delivered at Toronto, Lord Dufferin said some things on the subject of immigration where well deserving of serious consideration. Lord Dufferin's utterances on any subject are entitled to much weight, but more especially upon this. His Lordship's estimate is from personal observation and is certainly not overdrawn. On the contrary we consider it scarcely so favorable to the country, as the facts would warrant; it is nevertheless the sober testimony of a witness who is careful not to overstep the boundary of facts, and who is equally solicitous not to say anything to mislead his fellow-countrymen in England as to do justice to the country over whose councils he presides. We predict that these sensible and severe words of Lord Dufferin will be read and pondered over in Britain, and will bear fruit in promoting a desirable class of immigrants to Canada:

"For many years past I have been a strong advocate of emigration in the interests of the British population. I believe that emigration is a benefit both to those that go and to those that remain, at the same time that it is the most effectual and legitimate weapon with which labor can contend with capital. I have written a book upon the subject, and have been very much scolded for wishing to depopulate my native country; but, however strong an advocate of emigration from the English standpoint, I am of course a thousand-fold more interested in the subject as the head of the Canadian Government. (Applause.) Of course I am not in a position, nor is it desirable that I should take the responsibility of saying anything on this occasion which should expose me hereafter to the reproach of having drawn a false picture or given delusive information in regard to the prospects and opportunities afforded by Canada to the intending settler. (Applause.) The subject is so serious a one, so much depends on the individual training, capacity, health, conduct and antecedents of each several emigrant, that no one without an intimate and special knowledge of the subject would be justified in authoritatively enlarging upon it, (hear, hear;) but this at all events I must say, wherever I have been I have found numberless persons who came to Canada without anything, and have now risen to competence and wealth (applause,) that I have met no one who did not gladly acknowledge himself better off than on first arrival (cheers,) and that amongst thousand of persons with whom I have been brought into contact, no matter what their race or nationality, none seemed ever to regret that they had come. (Great and continued applause.) This fact particularly struck me on entering the log huts of the settlers in the more distant regions of the country. Undoubtedly their hardships had been very great, the difficulties of the climate and locality frequently discouraging, their personal privations most severe; but the language of all was indentical, evincing without exception pride in the past, content with the present, hope in the future (cheers); while, combined with the satisfaction each man felt in his own success and the improved prospects of his family, there shone another and even a nobler feeling—namely the delight inspired by the consciousness of being a co-efficient unit in a visible prosperous community, to whose prosperity he was himself contributing. (Hear, hear, and cheers.) Of course these people could never have attained the position in which I found them without tremendous exertions. Probably the agricultural laborer who comes to this country from Norfolk or Dorsetshire will have to work a great deal harder than ever he worked in his life before, but if his work is harder, he will find a sweetener to his toil of which he could never have dreamt in the old country, viz.: the prospect of independence, of a roof over his head for which he shall pay no rent, and of ripening corn-fields round his homestead which own no master but himself. (Loud applause). Let a man be sober, healthy, and industrious; let him come out at a proper time of the year, let him be content with small beginnings and not afraid of hard work, and I can scarcely conceive how he should fall in his career."

NO ONE should be without one of the most useful little instruments ever invented. The "LITTLE GEM," for marking linen, cards, books, &c., &c. Each name is set up in type and can be changed in such a manner that one instrument, with a few extra type, will suffice for a whole family. For sale at T. N. HIBBEN & Co.'s, Government street **

Compulsory Voting at Elections.

[Ottawa Free Press.]

During the last session of the Dominion Parliament, the subject of making the exercise of the franchise compulsory with all who enjoy its privileges, was brought up, and we may expect that in the future it will occupy the attention of the House. We have before expressed our entire approval of the proposition to make voting compulsory, and now that the ballot has become the law of the land, it becomes more desirable, and even necessary, that compulsory voting shall be enforced. The exercise of the franchise is not only the dearest privilege of a free people, but the exercise of it under the system of responsible Government is a duty which devolves upon every elector—a duty whose performance is of paramount importance to the welfare of the Commonwealth, and which should be imperative. The records of voting in elections show that on an average not more than three fourths of the qualified voters exercise the right of voting. In the constituencies in which contests occurred in the last general elections, the aggregate number of qualified voters was 54,832; the number of votes polled in those constituencies only amounted in the aggregate to 394,232. It is rather surprising that a deeper interest is not taken by the people generally in their public affairs, and we cannot but regard this apathy as hurtful, and in a measure responsible for the abuses which have at times been perpetrated by those entrusted with the Government. The neglect of this duty is probably owing to the harmonious working of our excellent system of government, and to the confidence which the people place in the institutions of the country; but it should be remembered that the price of liberty is eternal vigilance, and if a jealous and careful supervision of the conduct of public men is not exercised, when Parliament is from time to time placed upon its trial before the supreme fountain head of Government, it may be expected that abuses will creep in and public men become callous and indifferent to a public opinion which they know is negligent of their conduct. The great blessing of thorough self-government is one which is perhaps not thoroughly appreciated by those who have never known any other condition of their institutions; but history teaches us what long and arduous labors, what suffering and oppression, the people of Britain endured before this great privilege was secured as the glorious birth-right of the nation. We should be mindful that we do not despise or treat lightly an inestimable privilege, sanctified the blood and sufferings of patriots whose names are enshrined in the memory and gratitude of British people. The right of self-government finds its most practical exemplification, at times when the people sit in judgment upon the acts of their rulers, and pronounce a verdict at the polls upon their public conduct. It is meet that the dignity of this sacred privilege and duty should be asserted by a careful and intelligent discharge of it at the hands of the people, and to accomplish this it is in public interest that every voter, except for unavoidable reasons, should be compelled to add his voice to the expression of the popular will, in the exercise of the franchise. When the subject is brought up next session, we hope to see some law passed which will ensure the record of the vote of every man who, in the exerciser of the franchise has, a right to a voice in the affairs of the country.

OLD CHICORY is almost a thing of the past. Finlayson's Coffee presides over the present. It has now superseded what used to be claimed as "superior to any other manufactured on this coast," and will soon be found on every well-furnished table in the Province. Prepared at his premises on Fort street, and sold by all the principal dealers. **

RAFFLE.

ON SATURDAY NEXT, THE 10th OCT., at 8 o'clock, p.m., positively, the raffle for the Singer's Sewing Machine will take place at the Retreat Saloon. A few tickets only remain unsold.

Dentistry.

C. Francis Barnard, M. D.

SURGEON DENTIST.

DR. BARNARD HAS HAD FOR several months the "Perkins Hyatt" o "Celluloid Base," the newest and lates material adapted to the mounting of whole sets o eeth; he is also using "Whalebone-Rubber," which i apidly supplanting, for single dentures or partial set he best valcanites of the last 25 years.

We cheerfully add Dr. B's card to our columns, convinced that his good taste and judgment, united to nat ural skill and ingenuity, aided by an extensive practic of upwards of thirty years, render his services mor valuable and reliable than those of any other Dentis on the Sound, Coast or Island.

Dr. B's large experience may be readily seen in the happy and natural expression given his patrons by his life-like insertion of artificial Teeth.

The public may rest assured of patience, gentleness and undivided attention while under the Dr's hands, and that he will ever strive to be foremost in adopting helps and hints touching his own interest and that of his patrons.

OFFICE AND RESIDENCE—Douglas Street, between Dr. Powell's premises and Willson's Tea Store. Busines hours from 8 a m till 5 p m.

"ONWARD"

Will make Regular Trips to YALE, commencing 1st April.

Leaves New Westminster at 7 a. m. on Wednesdays and Saturdays.

Returning — Leaves Yale on Mondays at 8:30 a.m., and on Fridays at 5 a.m.

For Freight or Passage apply to

JOHN DICKSON,
New Westminster.
Or to CAPT. O. PARSONS,
mh22 Victoria

FOR SAN FRANCISCO,

THE STEAMSHIP

Los Angeles,

CAPTAIN F. C. SHOLL,

Carrying Her Majesty's Mails, will leave Victoria for San Francisco on or about the **11th and 25th** of each month.

For Passage or Freight apply to

BRODRICK & Co., Agents,
se27 Wharf street.

Notice to Mariners.

A BELL BUOY BEACON, PAINTED RED, having a square Cone on float 12 feet high, has been moored on "Kelp Reef," Haro Strait, in 11 fathoms of water, about one cable and a-half magnetic North of the extreme Southern reef.

The bell will constantly toll, but in very smooth water the intervals will be long.

Vessels passing or rounding the Beaco should give it a berth of at least two cables.

A penalty of Five Hundred Dollars will be enforced upon conviction of any person interfering with said Beacon.

JAMES COOPER,
Dept. of Marine and Fisheries, Agent.

Medical.

DR. J. COLLIS BROWNE'S
(Ex Army Med Staff)

CHLORODYNE

IS THE ORIGINAL AND ONLY GENUINE.

CAUTION—Vice-Chancellor Sir W P Wood stated that Dr. COLLIS BROWNE was undoubtedly the inventor of CHLORODYNE; that the story of the defendant, Freeman, being the inventor was deliberately untrue which he regretted had been sworn to. Eminent Hospital Physicians of London stated that Dr J Collis Browne was the discoverer of Chlorodyne; that they prescribe it largely and mean no other than Dr Browne's.—See TIMES, July 12, 1864.

The Public therefore are cautioned against using any other than

DR J. COLLIS BROWNE'S CHLORODYNE.

REMEDIAL USES AND ACTION.

This INVALUABLE REMEDY produces quiet, refreshing sleep, relieves pain, calms the nervous system restores the deranged functions and stimulates healthy action of the secretions of the body without creating any o those unpleasant results attending the use of opium. Old and young may take it at all hours and times when requisite. Thousands of persons testify to its marvelous good effects and wonderful cures while medical men extol its virtues most extensively using it in great quantities in the following diseases:—

Diseases in which it is found eminently useful—Cholera, Dysentery, Diarrhœa, Colics, Coughs, Asthma Cramp Rheumatism, Neuralgia, Cough, Hysteria, &c

The Right Hon Earl Russell communicated to the College of Physicians and J T Davenport that he had received information to the effect that the only remedy of any service in Cholera was Chlorodyne.—See Lancet Dec 31, 1864;

From A Montgomery, Esq., late inspector of Hospitals, Bombay: Chlorodyne is a most valuable remedy for Neuralgia, Asthma and Dysentery. To it I fairly owe my restoration to health after eighteen months severe suffering, and when other medicines had failed

Dr Lowe, Medical Missionary in India reports [Dec 1865] that in nearly every case of Cholera in which Dr Collis Browne's' Chlorodyne was administered the patient recovered.

Extract from Medical Times, Jan 10, 1866—Chlorodyne is prescribed by scores of orthodox remedical practitioners. Of course it would not thus be singularly popular did it not supply a want and fill a place.

Extract from the general Board of Health, London, as to its efficacy in Cholera.—So strongly are we convinced of the immense value of this remedy that we cannot too forcibly urge the necessity of adopting it in all cases.

Beware of spurious and dangerous compounds sold as CHLORODYNE from which frequen ftatal results have followed

See leading article, Pharmaceutical Journal, Aug 1, p869, which states that Dr J. Collis Browne was the inventor of Chlorodyne: that it is always right to use his preparation when Chlorodyne is ordered. Sold in bottles at 1s 1½d, 2s 9d, 4s 6d, and 11s each.

CAUTION—None genuine without the words "Dr. J. Collis Browne" on the Government stamp. Overwhelming medical testimony accompanies each bottle,

Sole Manufacturer, J T DAVENPORT,
